

Holy Family Catholic School

Year 3 Autumn Termly Learning plan

Subject	Focus
Religious Education	<p><u>Baptism</u> The children will be looking and experiencing what it is like to enter God's family through the Sacrament of Baptism. We will be learning about the Baptismal Rites, what they mean, why they are performed and how they change the person being baptised. We will learn about what belonging means and how it can relate to belonging to God's family.</p> <p><u>The Eucharist</u> Throughout the year, Year 3 will be learning about the Holy Communion and why it is received in Mass. Children will be able to deepen their understanding of the Liturgy of the Eucharist. They will be think about why this is such an important celebration in the Catholic religion.</p>
English	<p>The children will continue to develop their spelling, grammar, punctuation and comprehension skills through Literacy lessons and Guided reading sessions. The grammar focus will be directed towards understanding grammatical terminology and word classes and revisiting punctuation rules previously learned. The children will learn how to write a story in the style of a significant author, a recount, explore poems of different forms and write instructions and explanations. They will improve their writing by focusing on their Autumn target sentence types.</p>
Mathematics	<p>The children's target for this term is to know and understand place value corresponding to numbers consisting of 3 digits. For example; What is the value of the number 2 in 234. We will also be using CLIC, where the focus will be on doubling, halving and relevant timetables (2,3,4,6,8 and 50). The children will apply their previously learned knowledge into Year 3 Mathematics by solving word problems and investigations linked to number. We will also be using and learning about money, enforcing place value and giving then children an understanding of prices and change given.</p>
Science	<p><u>Light</u> The children will be looking and how light travels through an object. We will be looking at many different objects; Transparent, Translucent and Opaque. The children will use and develop their own experiments to help understand in which the way light travels.</p> <p><u>Human Body including Animals</u> The children will be developing a greater understanding of their own body, and comparing it to that of animals. Learning and understanding about our skeletal system will provide children opportunity to question what their body does and how their body works. Alongside this, we will be learning about correct nutrition. What food groups/types there are and how they affect our own bodies.</p>
Physical Education	<p><u>Gymnastics</u> The children will learn how to create, perform and evaluate a sequence of movements incorporating a variety of shapes, balances, jumps and ways of travelling.</p> <p><u>Football</u> The children will be learning the art of attack and defence. We will be using ball manipulation to gain greater control of the football, and start to become more spatially aware of the things/people around us. We will look at moving into space and receiving a football from a team mate, allowing us to invade the other teams half.</p>
ICT	<p><u>We Are Game Developers</u> The children will plan their own simple computer game. They will design characters and backgrounds, and create a working prototype, which they will develop further based on feedback they receive.</p> <p><u>We Are Bloggers</u> The children will learn how to create and write a good blog. They will write their own, adding in images and hyperlinks, and will comment on the blogs of others.</p>
PSHE	<p><u>SEAL</u> The children will learn about how to understand their feeling and emotions. They will discuss their feelings about starting a new school year, celebrate the things they are looking forward to and explore strategies for dealing with their worries or concerns. The children will also learn about the importance of getting on with others and discuss ways of doing this well. In addition to this, they will explore the impact that bullying has on others and the importance of reporting it to an adult.</p>
MUSIC	<p>The children will continue to build upon their knowledge of basic music notation and rhythm. The will also be learning to play more notes on their flutes as well as explore how to compose a piece of music. The dynamics and volume of music will be a large learning part, looking at how much changes throughout a song and how songs differ completely from others.</p>
Theme led learning: Humanities/Art/DT	<p>Our topic related themes this year are: India, Coventry, Mother Teresa and Mission.</p>
