

18/7/19 - Circus Skills Workshop!

Reception class celebrated the end of their first school year at Holy Family with a visit from Juggling Jim. Juggling Jim taught us all about balancing acts and how they require determination, patience, perseverance and team work! The children were able to persevere and communicate in their response to challenge and this is exemplary of their progress in their *Characteristics of Effective Learning* skills, which we have built on all year. Look at these determined smiles!
