It's important to exercise and keep ourselves fit and healthy. Why not start the day off by keeping active. Go for a family walk! Get outdoors, whatever the weather. Try and keep away from other families and groups.

You can also stay fit and healthy by joining in with exercises within the home. Follow the links on the physical movement pages. Maybe you could do them as a family. Don't forget to stay hydrated and to do the cool down afterwards.

Remember you can choose your favourite!!

Tell a grown up what it can do and ask them to write a description about it for you.

Zog in the story was, big and fat and had 10 red legs! It could run, hop, sit and beg. What can your pet do?

Finding one less than a number to 20

For this activity you will need a number grid and 20 small toys/object.

Here's an example of the number grid you will need.
Ask a grown up to help you make one.

<https://teachers.thenational.academy/lessons/finding-one-less-than-a-given-number-6wwp2d>

Ask a grown up to shuffle your number cards for you. You may want to start with numbers 0 -10 to begin with. Now take the card off the top of the pile and turn it over. What number is it? Can you say the number that's one less? If it's too hard you could use your number grid to help you.
